01 — BOOKING SNAPSHOT

STAGE ENERGY

The TribeVibers is a contemporary jazz trio designed for stages that need clarity, groove and a strong visual identity. The sound is acoustic, direct and alive: piano, double bass and drums moving as one organism, with melody, rhythm and improvisation constantly passing between the three players.

02 — THE STORY

A SHARED LANGUAGE

The TribeVibers brings together Italian pianist Karim Blal, French double bassist Gabriel Pierre and Montenegrin drummer Slaven Ljujić - three musicians from different Mediterranean backgrounds who found the same musical pulse in a single shared gig.

Their music is contemporary jazz that stays rhythm-forward, open and fearless: collective improvisation, groove, melody and a strong sense of conversation. The goal is not to sound like three soloists, but like one flexible body breathing in real time.
